SOMETHING DIFFERENT IN DAHLIAS

SHEFFIELD BULB FARM

MR. and MRS. GEORGE SHEFFIELD, *Owners*

BURTON, WASHINGTON

R. F. D. Box 49

*Farm South End of Vashon Island, one mile from
Tacoma Ferry Landing*

To Our Friends and Patrons

We thank you most sincerely for your favors and kind words of appreciation of our efforts to serve you. We solicit a continuance of the same and assure you of our continued endeavor to merit your orders.

To you to whom we are strangers, we would say, that we have been growing dahlias commercially for about twenty years. More recently we have added to our business the growing of lilies and some other bulbs.

We belong to nurserymen and bulb growers associations and dahlia societies from one coast to another and are licensed by the state of Washington, with our many years of association with dahlias and dahlia people, we believe we are qualified to judge the merits of a dahlia. We have arrived at the conclusion that it is absolutely useless to try to have all kinds, as there are probably ten thousand different named dahlias, by this time, many of them poor imitations of forgotten ones.

In this catalogue we have confined ourselves to dahlias of our own origination and some others of especial desirability.

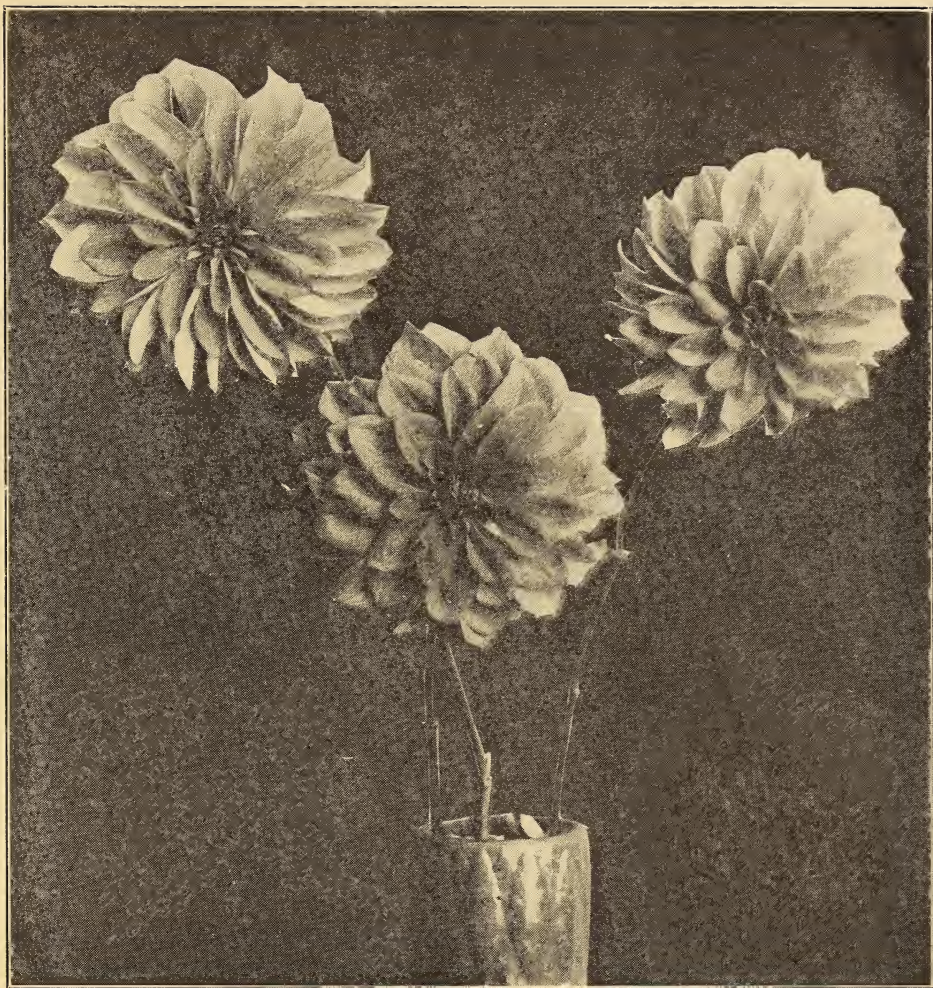

Our years of experience, and desire for your future business and good will, is a guarantee that you get good dahlias at a fair price, when you buy from,

Yours very truly,
